APPLIED MATHEMATICS AND STATISTICS (B.S.) (COMBINED B.S./M.S. APPLIED MATHEMATICS)

A Combined Degree program enables undergraduate students to enroll in graduate courses in their senior year, which can be counted towards the completion of both their Bachelor's and Master's degree requirements. The ability to take these "swing courses" allows students to earn both their Bachelor's and Master's degrees in a shortened period of time, typically within five years. Undergraduate students interested in this option can find more information regarding program requirements on the University's Combined Programs website (https://www.montclair.edu/combined-programs/programs-of-study/).

Unless otherwise noted, 120 credits of coursework is required for a baccalaureate degree with a minimum 2.0 overall GPA, and a minimum 2.0 major GPA.

Program Requirements

Students in this combined degree program must complete the requirements for:

Applied Mathematics and Statistics (B.S.) (http://catalog.montclair.edu/programs/applied-math-and-statistics-bs/)

Applied Mathematics (M.S.) (http://catalog.montclair.edu/programs/applied-mathematics-ms/)

Graduate Swing Courses

A combined degree program allows students to complete 6-12 graduate credits ("graduate swing courses") while enrolled as an undergraduate. These courses count for both their bachelor and master's degrees. Graduate swing courses will count toward undergraduate free electives, unless noted otherwise.

The Graduate Swing Courses for this program:

Code	Title	Credits
AMAT 530	Scientific and Numerical Computing I	3
AMAT 532	Applied Linear Algebra	3
AMAT 534	Data-Driven Modeling and Computation	3
AMAT 536	Applied Probability and Stochastic Processes	3
